

TICINO

design Shibuleru

Stackable chair made of solid ash wood with steel sheet angular reinforcements, available in natural and charcoal-dyed finish, with seat available weaved in cellulose rope, in the finishing available in our collection, or upholstered with seat chassis in plywood panel and padding in polyurethane foam covered with acrylic fibre layers.
Upholstery in fabric, leather and Cuoietto, as per the chart here following, fully removable via divisible zipper fastenings.
Floor support secured by PVC supports with interchangeable feet (black PVC or felt) depending on the floor.
